STILL FIGHTING FOR A JURY IN MIGHELL CASE; CHARGES MADE

ATTORNEY EDWARDS PROMISES SENSATIONAL DEVELOPMENTS

EIGHT JURORS ARE ACCEPTED

Trial Should Be Well Under Way Tomorrow—Considerable Interest in Trial

JURORS ACCEPTED.

Wm. Jones, Bradford, Mahlon Evans, Ashton, Samuel Eakin, Dixon, Wm. Tyreman, Wyoming, Frank Kesseler, Franklin Grove, George Noe, Alto, Homer Sword, Bradford, Willis Reigle, Franklin Grove.

States Attorney Edwards promised a sensational development in the Mighell case when he stated to a Telegraph representative that he had learned that efforts had been made during the noon hour to "fix" some of the jurymen. Just what action he would take he was not prepared to state, but the statement promises interesting features.

The tedious task of securing a jury in the Mighell case was resumed at 1:30 this afternoon when the 50 extra veniremen ordered by Judge Farand yesterday afternoon, reported at the court house. With three jurors tentatively accepted by both state and defense, the prospects for securing 12 jurors from the 50 veniremen were excellent.

The crowd in the court room when court convened this afternoon was considerably larger than yesterday, much of the increase being due, of course, to the presence of the extra veniremen. The extra jurymen each of whom answered to the call were:

Franklin Grove—

Willis Reigle, William Phillips, William Burhenn, Frank Kesseler, John Reinhart, J. E. Sanders, R. W. Smith, Carl Schade, William Giese, William Farrow.

Ashton—

Earl Howey, Vincent Arnold, Charles Hunter, Charles Piefflefer, Charles C. Schafer, Eugene Coy, Wm. Morrissey, Henry Rambo.

Amboy—

G. M. Finch, Frank Gentry, Archie Whittatch, P. S. Snyder, David Willman.

Alto—

George Noe, J. M. Herrmann, Levi Johnson, Ira Cooper, John Yetter, Wm. Daum, Ed. Morton.

Brooklyn and Viola—

J. S. Archer, Ernest Butler, Will Bettner, Wm. Carnahan, John Eggers, Homer Sword, Frank Bauer, Jesse Cole, Tonie Haffner, Lafe Carnahan.

Wyoming—

Everett Pierce, D. R. McLaughlin, Chas. McMillen, Lee Coss, Ben Valentine, Mark Hopwood, Grant Raymer, Will Tyreman, Ike Snow, Fred Henry.

Wm. Tyreman was the first of the new veniremen called. He was accepted by both the state and the defense. A. J. Barlow of Amboy was excused for cause. Wm. Giese of Ashton and Henry Hintz were also excused for like reason. Fred Henry of Franklin Grove was next called.

PRESCOTT RELEASED FROM ROOSTER CHARGE

NOT GUILTY, BUT HE SHOULD RETURN THE ROOSTER, SAYS JURY.

'We find the defendant not guilty, but we think that he should return Prof. Snyder his rooster.'

That was the verdict of the jury in the mock trial in the case of W. R. Snyder vs. George Prescott at the opera house last evening. The verdict was read by Joseph G. Cannon, foreman. The rest of the jury was made up of President Taft, Chauncy M. Depew, John L. Sullivan, J. Pierpont Morgan, Theodore Roosevelt, John D. Rockefeller, Dr. Frederick A. Cook, Admiral Peary, Gov. Dunne. Of course perfect justice mentioned. Of course perfect justice was accorded the defendant and complainant by such an impartial jury.

Throughout, the trial was full of laughs and the audience, which almost packed the opera house, appeared to enjoy every minute.

SUNDAY VAUDEVILLE GETS REPRIEVE OF TWO MORE WEEKS

ORDINANCE WAS LAID ON THE TABLE BY A VOTE OF THREE TO TWO.

BRINTON ROASTS COMMISSIONERS AND DECLARES COUNCIL CAN NOT STICK TO A THING OVER NIGHT.

DISCUSS POOL ROOM QUESTION

Commissioners May Decide to Allow Minors to Frequent Pool Rooms Until 10 o'Clock at Night — Waldo Ward Resigns.

The commissioners of Dixon met in regular council last evening and for the first time in many weeks a small crowd of interested citizens attended. The Sunday vaudeville closing ordinance was the attraction of the evening and the main issue at stake.

Mayor Brinton's ordinance for the suppression of Sunday night vaudeville still survives, but it is slightly disabled and will not be able to be about for at least two weeks. Commissioners Gannon and Schuler are responsible for the crippled condition of the ordinance.

Contrary to all expectations the ordinance did not pass the council last evening. Mayor Brinton moved its passage and Commissioner Henry Schmidt seconded it, but before a vote could be taken Commissioner Gannon came to the rescue of the Sunday shows with a motion that the ordinance be laid on the table for two weeks. Commissioner Schuler seconded this motion, explaining that he had not had time to fully investigate the conditions and that he wanted more time to decide whether the ordinance was all right or not. Commissioners Gannon, Schuler and Van Bibber voted in favor of the motion and Mayor Brinton and Commissioner Schmidt voted against it. The mayor did not believe in putting any man out of business. The majority of the commissioners and the mayor seemed to agree with him and the probability is that minors will be allowed to play in the pool rooms but the closing hour will be changed from midnight to 10 o'clock, the contention being that a well regulated pool hall is as good a place for a boy as any other place, and he must go somewhere, but that 12 o'clock is too late. If the boys are sent home at 10 o'clock matters would be vastly remedied, think the commissioners.

Waldo Ward Resigns.

Waldo Ward, utility man at the city hall, handed in his resignation to the council last night, with a note declaring there was due him from the city several dollars in back pay, for that some months ago his pay was to have been raised \$5 per month, but that the raise had not yet been forthcoming. The resignation was accepted. No one was appointed in his place.

Pave Paving Ordinances.

Local improvement ordinances 144 and 145, providing for brick paving and curbing on Ottawa, Crawford, Commercial alley, River street and Hennepin avenue were passed by the council in perfect harmony.

Commissioners Schuler and Gannon reported that they had inspected several different makes of fire trucks in Chicago and had decided that the White was the best truck they saw. They are awaiting the arrival of further data, specifications, prices, etc.

IS NO BETTER.

Philip McGrath, who is in a very serious condition, is no better today.

Miss Dorothy North is ill.

C. D. Kelley, who visited his wife here Saturday and Sunday, has gone to Centralia on business.

Miss Schaefer, who has been with the I. N. U. company, has returned to her home in Morrison, where she has accepted a position.

being called. Geo. Kessel of Maytown was excused for cause, his place being taken by Frank Kesseler of Bradford. Wm. Smith of Dixon was excused by the state and Homer Sword of Bradford was called. Fred Henry, Homer Sword, Geo. Noe and Frank Kesseler were accepted by the state at 3 o'clock. Fred Henry of Pawpaw was excused. Willis Reigle of Franklin Grove was next called.

drastic, and was following a half-way course in an effort to respect the wishes of all classes and to harm no one.

The mayor's criticism of the council as vacillating roused the ire of Commissioner Gannon, and the west end commissioner pounded his desk and bristled with indignation when he declared that the most vacillating member of the council was named Brinton. Mr. Gannon said: 'I'm going to defend myself. I voted to allow the ordinance drawn up so there might be an opportunity to discuss it fully. I would second any motion to get it before the house and have the matter argued out. The reason the mayor has heard no objections to the ordinance is that the objectors are not in his class. He does not mix with the masses like I do. And talk about vacillating! How about the auto ordinance? I know a member of this council who said at the bottom of the stairs that he was against the ordinance, and when he got upstairs he voted for it, and his name is Brinton.'

The mayor declared that Mr. Gannon was wrong, that he was anything but a 'Silk Stocking,' and that he came in contact with the masses more than any man in the council.

However, the ordinance was knocked in the head and laid out stiff and cold on the table, and it is not due to regain consciousness until a week from next Monday night.

May Modify Pool Law.

Commissioner Gannon brought up the matter of excluding minors from billiard and pool halls. He said the enforcement of the ordinance was doing great harm to the business, and he did not believe in putting any man out of business. The majority of the commissioners and the mayor seemed to agree with him and the probability is that minors will be allowed to play in the pool rooms but the closing hour will be changed from midnight to 10 o'clock, the contention being that a well regulated pool hall is as good a place for a boy as any other place, and he must go somewhere, but that 12 o'clock is too late. If the boys are sent home at 10 o'clock matters would be vastly remedied, think the commissioners.

At 5 p. m. the delegates from the several county institutes will meet in the M. E. church to elect directors for the Illinois Framers' Institute.

DEPUTIES GATHER PANEL QUICKLY

SHERIFF REID'S MEN ROUND UP BUNCH OF JURYMEN SPEEDILY.

Judge Farrand's order was not transmitted to the deputies until after 4 o'clock, but the necessary number of men were on hand this afternoon when the Mighell case was resumed.

Geo. Travis of South Dixon was in Dixon yesterday. Miss Luella Crissman returned last evening from a visit in Chicago and Elgin. J. H. Kenneth leaves this evening for Fargo, N. D., and thence to Grand Forks, from there to Billings, Montana, in the interest of the Rumely Co. Mr. Kenneth has been spending several weeks at home.

Children's Headaches

Nine times in ten the headaches of children, if at all persistent, are caused by some abnormality of vision.

In some cities a systematic examination of school children's eyes has taken place.

With the result that quite a large proportion of the children examined were found to need glasses.

If you've a case of child's headache in your home, the right thing to do is to let us make an examination.

If there is an error of refraction present, we can correct it, and the headache will disappear at once.

MISS PECKHAM'S BEAU

By BLANCHE HARPER.

"Miss Peckham has a beau," announced Mrs. Bennett, breathlessly, to the women who were gathered around the bridge table.

"You don't say so!" exclaimed Mrs. Holman. "Who is he?"

"The new boarder," replied Mrs. Bennett. "He's the tall young man who sits at the middle table. He took a great fancy to Miss Peckham the very day he came. I'm so glad! Miss Peckham is one of the finest women at the Brownstone, and it certainly is a shame that she never had a beau before."

"Never had a beau!"

"Never!" repeated Mrs. Bennett, impressively. "She admitted it to me in confidence one day. I intend to help her along all I can, and see that she lands Mr. Weed, for she deserves a good husband."

"I should say she does!" agreed one of the other women. "Let's all put in a good word for her, and then if she doesn't land him it won't be our fault."

That evening after dinner Mrs. Bennett was sitting on the front porch of the Brownstone alone when young Weed made his appearance.

"Good evening, Mr. Weed," chirped the gopher eyed Mrs. Bennett. "How do you like the Brownstone?"

"Very much indeed, Mrs. Bennett. The food is good and I find the people pleasant."

"I'm so glad to hear you say so, Mr. Weed. I've lived here four years, and I am very fond of all the people here, especially the young ladies. We have such lovely young ladies here, don't you think so?"

"Yes, yes, indeed," young Weed replied nervously. "A bachelor can never be too wary."

"I think Miss Peckham is an especially fine girl," Mrs. Bennett went on. "She is perfectly splendid and she makes the best things in a chafing dish you ever tasted."

Mrs. Bennett glanced out of the corner of her alert brown eyes to see the effect her speech was having upon young Weed. He was plainly moved, for he fingered his cane nervously and hurried down the steps, murmuring something about an engagement.

The next morning Mrs. Holmes met young Weed in the hall on his way to breakfast.

"Good morning, Mr. Weed. Lovely morning, isn't it?"

"Fine, fine," agreed young Weed, standing politely aside for Mrs. Holmes to pass, but that designing person moved not at all.

"Too bad this isn't a holiday. It would be such a lovely morning to play golf. You know, Miss Peckham is an expert golfer, and you should challenge her to a game some fine morning."

"Yes?" spoke young Weed, inquiringly, reddening a trifle. "I am not much of a golfer myself."

"Then you should have Miss Peckham take you in hand and teach you," insisted Mrs. Holman. "I'm sure she would love to. She is so accommodating! And she has such a perfect disposition! Really, Mr. Weed you should know her better."

Young Weed succeeded in driving Mrs. Holman before him to the breakfast room, where she beamed at him from her table across the room all through the meal.

As young Weed stopped at the mail box in the hall Mrs. Adams sailed down the front stairs, elbows waving. "Looking for a love letter, Mr. Weed?" she bantered gayly.

"Not this morning, Mrs. Adams. No such good luck for me. Haven't got a girl, you know." He smiled at her unquisitely.

"Well, now, that's too bad, Mr. Weed. A man with your good looks should not have any trouble finding a girl. If you want any help, just let me know. I know of one not very far away. She is a dear, and I'm sure you would like her very much if you knew her better. There! I've let the cat out of the bag, for you do know her already. Really, Mr. Weed," she went on confidentially, "Miss Peckham is one of the most charming girls at the Brownstone. And so versatile! She can do anything—cook, sew, sing, converse intelligently, do anything. Really, you should cultivate her acquaintance. I'm sure you two would be very congenial."

Young Weed's hair fairly stood up with alarm as he hurried away. Evidently there was a combination to snare him.

The next afternoon Miss Peckham sat on the porch reading. She was entirely unconscious of the havoc that had been wrought by her well meaning friends. She looked up in surprise as young Weed came out on the porch, suitcase in hand, his long, pointed nose stabbing the atmosphere before him. Having scented danger, he was making his retreat. He started slightly as he spied Miss Peckham and took a firmer grip upon his suitcase.

"Why, Mr. Weed, are you leaving us?" she inquired, turning her round, surprised eyes on the suitcase.

"Umph huh!" he grunted. "Going on the North side to live. Walking distance from downtown, you know."

"Well, you must not forget us, Mr. Weed. Come over and see us occasionally, won't you?"

"Fraid not," young Weed mumbled, ungraciously, leveling his suspicious eyes upon the anxious little spinster, his face wrinkling in a sour smile. "Going to take up a correspondence course and will be too busy evenings to make many calls. G'by!"

He strode off down the street, swinging his suitcase relievedly. "Chicago Daily News."

Try This Home-Made Cough Remedy

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with $\frac{1}{2}$ pint of warm water, and stir for 2 minutes. Put $\frac{1}{2}$ ounce of Pinex (fifty cents' worth) in a pint bottle; then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. It seems almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, was no tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation.

This recipe makes more and better cough syrup than you could buy ready made for \$2.50. It keeps perfectly and tastes pleasantly.

Pinex is the most valuable concentrated compound of Norway white pine, and is rich in guaiacum and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and sugar syrup (or strained honey) has proven so popular throughout the United States and Canada that it is often imitated. But the old, successful formula has never been equalled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. DEMENTTOWN
...DOINGS

It won't be long until one hears the big noise, "Play Ball!"

A few days like yesterday and local kids will be doing their "spring training" just as consistently as the professionals who are in the south.

The reason some children don't say their prayers after being told it, they don't do so they cannot go to Heaven, is said to be because the kids want to go with their fathers.

There must be some error in the report from England that the suffragettes are cutting the telephone wires in their efforts to win votes for women. Imagine, if you can, a live suffragette doing anything to interfere with talking.

Ladies will do well if they do their Easter hatting early. It falls on March 23.

Old man Purdy says he doesn't know which is the fastest typewriter made but there is some pretty swift blonde ones around this town.

Grandma Perkins, who has been at the point of death for 10 years, has bought a new bicycle so as to ride over to Amboy, where she has accepted the lucrative position of forewoman of the flour and feed mill.

BEF SUPPLY SMALLER

Extent Shown in Animal Industry Bureau Report.

Cattle for This Purpose Decreased in Number 14,306,000 in Past Six Years.

Washington, Feb. 18.—Figures which show the extent to which the beef supply of the country has diminished in the past few years are presented in the annual report of the bureau of animal industry, submitted to congress.

In the last six years the number of beef cattle in the United States has diminished 14,306,000, or 37.1 per cent. In 1907 it was estimated by government experts that there were 51,566,000 beef cattle in the country. This was an increase of 9.56 over the year before. The next year the alarm began. There were 50,073,000 beef cattle.

Last year there were only 37,250,000.

"The home demand for beef has been increasing along with the population," says the report. "According to the census, we have 29,000,000 more people to feed than we had 20 years ago. Americans are great meat eaters. A recent estimate made in this bureau shows the annual consumption of meat per head of the population to be 162 pounds, of which beef constitutes 80 pounds and veal 7.12 pounds. This is about 25 pounds per head greater than the British consumption of beef and veal and approximately 40 pounds greater than that of France and Germany.

"The time has come when we must conserve our meat supply and take steps to increase it."

'HIKE' WEARIES WOMEN

Suffrage Pilgrimage Has Ceased to Be a Lark.

Gen. Rosalie Jones and Her "Army" Reach Chester, After Plodding Through Snowstorm.

Chester, Pa., Feb. 18.—This hike that Gen. Rosalie Jones and her determined little band of rampant suffragettes are making has reached that crucial period common to all movements and endeavors that means make or break. They are in Chester, sick unto death of vacillating weather, roadside demonstrations and tea. It is estimated that each member of this hiking party has consumed at least five pounds of tea since they started out from New York last Wednesday. This pilgrimage has ceased to be a lark. Smiles are rarities.

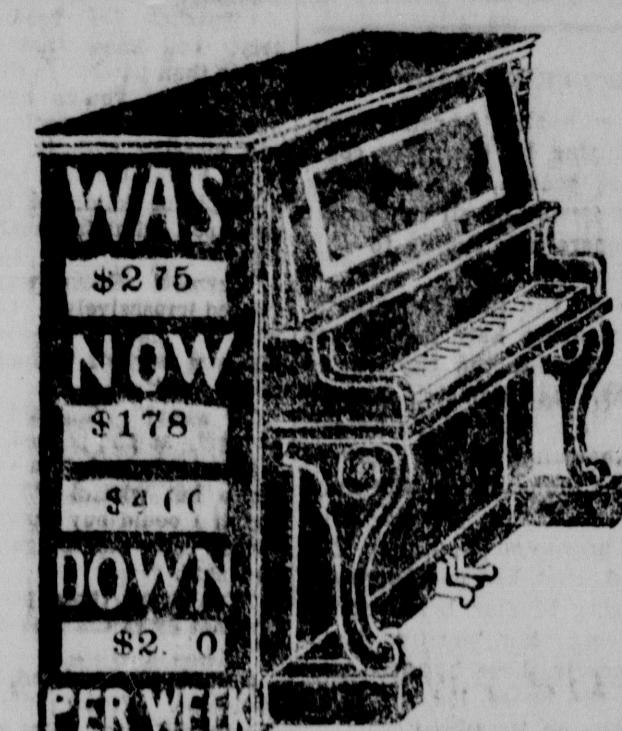

They passed out of Philadelphia and struggled through a throng of 20,000 persons who lined the streets as far as Derby. They left the Hotel Walton wearily, escorted by a mounted squad of 100 policemen, who cleared a path through which they might move. They marched over Broad street to Chestnut and thence to Woodland avenue, where fully 3,000 students of the University of Pennsylvania massed in front of the college buildings cheered them.

A driving snowstorm, mingled with a disagreeable warmth, made atmospheric conditions totally opposed to comfortable walking.

RUSE OF SISTER JEAN

By MARTHA McCULLOCH-WIL-
LIAMS.

Wingfield looked at his sister Jean, frowning heavily. She sat across the room from him her head bent, her hands discolored but stitching deftly at something—something that roused him to anger. He flung his book half way across the desk in front of him, got up laggardly, and said, balancing himself with both hands upon the desk-top:

"Patches are premeditated poverty. You know that—yet you do worse than patch. Is this the third or fourth time you've made over that hat? I'm sick of seeing it—of seeing you messing with it. A new one, much better looking, would cost only a couple of dollars—I believe you insist upon trimming such things yourself."

"Correct! Every way," Jean answered impassively. "I am not in love with my hat-making—nor even with my own way of trimming. Maybe I might be if—"

"What?" Wingfield asked almost savagely as she paused.

She smiled at him—rather a hard smile but wistful. "I was about to say if I could buy the things I like—rather than the things I can afford," she said.

"You mean those poodle-dog feathers that fly in the face of everybody?" Wingfield queried.

She shook her head, saying, "No—praise be. Willow plumes don't tempt me in the least. But I would like—

for this summer—a real fine straw—the seven-dollar sort, as pliable as cloth almost and very rich broad pale purple velvet for a bow and a tassel of orchids. I say just the thing yesterday—for seventeen dollars—and a Paris tip, inside the crown—to make believe it came from there."

"Go get it!" Wingfield ordered, pulling a roll of bills from his pocket and tossing them to her.

She did not touch the money. She looked at him steadily, smiling still that old smile. "I have never yet put the rent into finery," she said, dropping her eyes.

Wingfield scowled. "I am beginning to believe it might better for us if you did," he said. "You're not a bit bad-looking—but nobody wants a dowdy anywhere. That's how you're left out of things. I have to go—it is part of the game to be seen right—and things are slow enough as it is."

"I have not complained," Jean said calmly. "It is not very—exhilarating—eating bread and cheese in the kitchen alone, when you are with your friends. Still, somehow I would rather stick to the bread and cheese. They do not bore me—not anything like the gang which haunts those table d'hôte places."

Jean has risen, hat in hand. She turned to the mirror and set it upon her head, speculation in her eyes, a stronger frown underneath the brim.

"It looks like a last year's bird nest," she commented, tossing it to the ceiling and catching it askew.

"Nobody would believe I was once a fielder, though a substitute," she said with a faint twinkle. "Do you remember the game Tim? Out in the back lot—I was just thirteen and gawky as a young calf—but I could run—and had the only pair of real legs left available."

"I remember—well," Tim nodded.

"That was a game sure. Accident was epidemic—ten of our noble team, canned with sprained legs, arms, shoulders—what not. But not a one could have caught the fly you did—it saved the game for us. That reminds me—I met Treptow last week—and almost the first thing he said was: 'Where is that sister of yours? The girl of the fly?'"

Jean said quietly.

Wingfield looked down. "You know I can't tell people," he said almost trembly, "if they knew I—we kept house they'd expect—O! hang it! You know why."

"Perfectly," Jean said. "You are ashamed to seem poor—you'd mind that worse, much worse, than being poor. You like to be liberal—mind—I don't say extravagant. Since you earn most of the money, you have a right to spend it as you choose. I have never complained—I never shall."

But this I ask—if Billy Treptow comes in your way again—ask him here to dinner."

"Ask him! When he has all the rich folk running after him! Don't you know that?" Wingfield demanded.

Jean nodded, but persisted. "Ask him. I know he'll come—if you tell him I am to be cook."

Somehow Wingfield did ask Billy.

In fact, he could not very well escape it, because Billy developed suddenly a turn of inquiry that quickly brought out the facts. Jean was in the city—keeping house for her brother—Billy straightway demanded the address.

Wingfield went home laggardly. It was late when he got there—too late for anything but a hurried change of costume. It took him all aback to find the living room deserted, the dining room, a tiny place, likewise empty except for massed roses. He wondered if, after all, Billy Treptow was not coming. It was five minutes past the hour. Suddenly from the kitchen he heard voices and laughter.

Pushing into the door—there was no room to go clean inside—he saw Billy with both arms about Jean, both hands upheld a platter of delectable fried chicken. She was laughing and saying: "Mind! You'll upset your dinner," to which he was answering, "Not on your life. I've been waiting five years to eat your cooking—now I mean to eat it always."

SHE HAS A GRIEVANCE

By MARY BAILEY.

"Wouldn't I like to get my hands on that landlord, though!" ejaculated Mrs. Regan, with deep yearning. She stood conversing across the low railing that divided her back porch from the next one in the Garibaldi flats. "Wouldn't I, just! Him talking so smooth and pleasant and nodding his head: 'Yes, Mrs. Regan.' 'Certainly, Mrs. Regan!' as though his mouth was full of butter!"

"I was just going through the basement of the laundry, when I saw him talking to the janitor and the janitor a calling him Mr. Phelps as polite as could be. It flashed over me here was my chance."

"I went right up to him when I heard the name. 'Are you the Mr. Phelps that owns the building?' says I. 'Are you the landlord?' 'Yes, madam,' says he, kind of startled like. 'Mr. Kelly, the agent being sick, I thought I'd come around myself and have a look at things.'

"'Well,' says I, 'I'm glad to have a few words with you. Not wanting to say anything against any one when he's not here, I won't tell you how that man Kelly has deceived and brown-beaten me and said 'yes' and acted 'no' to a few simple little requests I had to make. If that man Kelly was to be asked his own name point blank he'd say it was Jones just because he hates to tell the truth!'

"'Look at my gas stove!' I says. 'No.' I says impatient, for Mr. Phelps looked around the basement kind of wild, as though he expected to see the stove there among the laundry tubs, 'It ain't here, but I'll be glad to show it to you! Here am I, working myself to skin and bone trying to keep the nickel on that stove bright and it looks like old junk.' And he up and says he won't furnish a new one because this was new last year. And me asking him polite and gentle for new shelves in the pantry every time I've laid eyes on him, and him saying he'd see about it and he hasn't! These shelves are two inches too wide for any shelf paper and I'm a neat woman and I don't like dust over next the wall, even if it doesn't show!'

"'Now, I put it to you, Mr. Phelps,' I says, 'is that any way to treat a tenant as pays prompt each month?'

"'No, no, indeed!' Mr. Phelps answered, breathless like. 'If you'll excuse me—'

"'Just a minute,' I says, taking him by the arm. 'While you're here I want you to come upstairs and look at the wall paper in my parlor. I've had Mr. Kelly look at it every time I've seen him and he's agreed that I should have it done over and then he doesn't do it!'

"Of course, I picked it out when I came in and that was all right, but how did I know my daughter Mamie was going to get a craze to have her hair dyed that reddish tint? You can see for yourself, Mr. Phelps, how red hair won't go at all with this pinkish paper. Mamie has an artistic temperament and she says every time she has to come into this room it makes her feel faint and she is neglecting her piano practice something shocking just because she can't stand her hair next to this paper.'

"Henry Dilbeck, the plumber around the corner," I says, "is paying particular attention to Mamie and, goodness knows, she may lose him, feeling so awful about the paper and not being able to concentrate her attention on him as she ought, men being so keen on being made a fuss over! Any man with a heart, Mr. Phelps," I says, "would feel sorry for Mamie and not let the price of a few rolls of paper spoil her life, poor girl! Though I don't see why she picked out that shade of red for her hair, even if it is stylish. When will you send the paperhangers, Mr. Phelps?"

"He said at once that he'd see and started to go, but I stopped him. I said that besides the gas stove and the paper and the pantry shelves I wanted the floors done over and new window shades and new gas fixtures in the dining room like they have at Mrs. Casey's in the next street, and that there ought to be a new carpet down the front stairs. All he did was nod and say 'yes' and agree with me and I told him that he was a gentleman with sense and Kelly might well take a lesson from him."

"When I was opening a closet door to show him where I needed new hooks he opened the front door and slid out."

"I waited and waited a week for the paperhangers and the new stove and things and nothing happened, and then I looked in the telephone book and called up Mr. Phelps' office. No dealing with that Kelly for me when I can get the owner!"

"What do you suppose I got? Some snip of a girl says: 'Mr. Phelps left word to tell Mrs. Regan that he'd gone to the middle of Africa for ten years and was likely to be delayed getting back and for Mrs. Regan to please see Mr. Kelly!'

"Kelly! You can't trust any of 'em, says I. But wouldn't I like to tell Mr. Phelps what I think of him? He's worse'n Kelly!"—Chicago Daily News.

Tit for Tat.

In one of his witty Thanksgiving addresses Senator Depew once said:

"Our forefathers went to Thanksgiving service on Thanksgiving morn with blunderbusses on their shoulders and both eyes peeled for Indians—and at that got many an arrow wound en route, and left many a scalp behind."

"It is no longer thus. There's truth in the little boy's dictum."

"Pa," said the little boy, "did the Indians settle America?"

"Yes, my son."

"And then, pa, we settled the Indians, didn't we?"

PAIGE 36

Gray and Davis Electric Starting and Lighting System, Silent Chain Driven Motor Gears, 116 inch Wheel Base, 34x4 inch Tires, Left-side Drive, Center Control, Cork Insert Clutch.

YOU KNOW a good deal about the unusual equipment of the Paige "36." You know it has the famous Gray & Davis Electric Starting and Lighting System. That point of itself is enough to mark the Paige as a distinctive value in its price field. You know it has the Bosch Magneto for ignition. No better to be had. Then think of all the rest of the equipment—ventilating windshield (built into the body), silk mohair top (tan lined), ton boot and curtains, Stewart revolving dial speedometer, 12-inch electric headlights, electric side and tail lamps, five demountable rims, robe and foot rails, extra tire irons, license bracket, and all the incidental equipment such as horn, pump, jack, tools, etc. The trimmings throughout are of heavy nickel.

BUT NOW WE WANT TO EMPHASIZE THIS ONE FACT—THAT THIS EXTRAORDINARY EQUIPMENT IS NOT ONE WHIT MORE EXTRAORDINARY THAN THE CONSTRUCTION OF THE CAR

It is generally conceded that we contribute to Paige motor efficiency. We have accomplished a great work in being able to produce and sell the Paige owners never have trouble with an overheated motor.

The intake manifold is of aluminum and very short—made possible by location of gasoline tank in the dash. This eliminates condensation of gas vapor in the manifold and gives most effective carburetion.

The connecting rods are drop-forged from high-carbon steel, and are long—10 1/2 inches. These long connecting rods, together with the fact that the cylinders are off-set in the direction of rotation, reduce side-thrust to a minimum and eliminate unequal wear in the cylinder walls.

The heavy crankshaft is made of very strong, drop-forged and heat-treated steel and runs in three extra long bearings—front bearing 3 inches, center bearing 2 1/2 inches, rear bearing 4 inches.

The Paige "36" motor is as quiet as the watch in your pocket. We believe it is as quiet as any motor ever built. Our chaindrive for camshaft and pump shaft help make it quiet.

The aluminum crank case is light and strong, as a crank case should be.

Paige "36" lubrication is a feature of this unusual car. In no other detail of Paige "36" design do we feel greater pride. It is perfect and complete.

HERE IT IS--- SIMPLE AS A. B. C.

The A. B. C. Power Washer and Wringer

Look at it! Isn't it a beauty? All-steel frame—cannot warp, crack, break, slit or chip. Made to last a lifetime. Did you ever see anything finer or more simple in a washing machine?

Look at our Sliding Power Wringer. See how it is attached to upright frame and slides along the wash stand, and wrings wherever placed—from either wash tub or rinse tubs. This wringer can be operated at the same time that tub is working, and by the same power. The A. B. C. does the quickest, best, easiest and most economical work. There is no lifting or shifting of tubs, no bending over or cramped positions to assume; no red, raw hands in fact no physical exertion at all—the power does it all—and does it right.

The A. B. C. Noiseless Belt Drive's insure automatic stopping of wash tub and wringer if the washing should get twisted and liable to be damaged.

The A. B. C. Washer is started smoothly by gently lowering lid of wash tub, which allows the flywheel to gradually come into contact with the moving drive belt. In this way the washer picks up power without experiencing the violent shock which is inevitable with a chain-driven washer. This is easy on the washing and the machine.

WOMAN STRICKEN WITH

BLINDNESS FRIDAY

Lena Star: While getting breakfast a week ago Friday morning, Mrs. William Wybourn was seized with a dizziness in her head. This affected her sight and she became unable to see anything. Much of the time since then she has been totally blind, although there are times when she can see a little. The loss of her sight seems to be her great trouble as she is able to be out, with the exception that she is practically helpless on account of her affliction, which her many friends hope will soon be removed.

Knew Value of Incense.

Doctress a form of incense was burned in China and in what is now India many centuries before Christ, probably even before the time of Moses and Aaron. It may be that the wise men of those ancient days had learned through long years of experience that there was less illness when quantities of incense was burned than when none was used. Whether they believed this was because of some Divine token of approval, or really understood the disinfective qualities of the incense is not known.

Crow "Helped" in Golf Game.

An unusual golf story comes from Scotland. Mrs. Barnett, an American lady living at North Berwick, while playing on the course recently, had her game considerably interfered with by a persistently inquisitive crow. She had just made a tee shot when the crow secured the ball, and, after flying with it for some distance, dropped it. The lady made two other shots, and the crow, to her amazement, twice returned and lifted the ball after she had played it.

Arrested at Child's Grave.

A pathetic scene took place at a Geneva cemetery the other day, when a French couple, who had been expelled from the town, were arrested as they were attending the burial of their only child. While the priest was reading the burial service, the detectives informed them that they would be conducted to prison, but they were allowed to remain until the end of the ceremony.

FINE ARTS THEATRE—CHICAGO.

"Hindle Wakes" at the Fine Arts theatre, is arousing as much discussion in Chicago as it did in London during its run there. This four act play by Stanley Houghton tells the secret if a girl who becomes temporarily infatuated with a wealthy young man and runs off to spend the week-end with him. Her parents find out about the escapade and are determined the man shall marry her to save her reputation. The boy's father, the rich mill owner, likewise decides his son shall wed the girl and the young man himself finally consents. At this point, skillfully and thrillingly worked up through three acts, the girl herself takes a hand.

She point-blank refuses to wed the boy and sounds a clarion note for her. She daringly declares that woman has as much right to happiness as man and she will not marry simply because she has been out on a lark with him. Her stand is a shock to all and the audience listens breathlessly while she delivers her views on the subject of woman's rights in the game of love.

John H. Patterson Sentenced to Pay \$5,000 Fine and Serve One Year.

SHERMAN LAW WAS VIOLATED

Twenty-Eight Other Defendants to Be Locked Up From Three to Twelve Months Each—New Trial Is Denied—Scored by Judge.

Cincinnati, Feb. 18.—John H. Patterson, president of the National Cash Register company, who with twenty-eight other officials or former officials of the company was convicted of criminal violation of the Sherman anti-trust law, was sentenced here to pay a fine of \$5,000 and to serve one year in jail. The twenty-eight other defendants were sentenced to terms ranging from three months to a year in jail and to pay the costs.

Judge Scores Defendants.

Judge Hollister in passing sentence severely arraigned the defendants, declaring that the maintenance of the competition department with its "gloom room" and "morgue" constituted business methods that should not be countenanced.

One of the defendants was given three months in jail, while three others were sentenced to nine months and the rest to one year. George Edgeter of Dayton, secretary of the company, was given the sentence of three months. William Bippus, treasurer; Alfred A. Thomas of Dayton and Jonathan B. Haywood of New York were given nine months in jail.

The following were sentenced to one year:

Before passing sentence Judge Hollister denied the motion of the defendants for a new trial and declared that the defense had submitted no new evidence. He said he had come to the conclusion that the verdict had been upheld by the evidence. The bond of President Patterson was increased to \$10,000, the sureties of the other defendants remaining the same.

RAIL HEADS DEFIANT

Managers Announce They Will Not to Arbitrate.

Firemen Ask for Time to Consider This Move Instead of Declaring Strike.

New York, Feb. 18.—After many conferences between committees representing the railroads and the firemen in an effort to find a solution to the wage controversy which is threatening a strike on all railroads east of Chicago, the railroad managers threw down the gauntlet to their employees by announcing finally that they absolutely refused to submit the points at issue to arbitration under the terms of the Erdman act.

To the surprise of those present the representatives of the firemen instead of giving notice that a strike would be called at once, as they have declared for the past several days, gave indications of backing down and asked if the railroads were willing to give them time to put the matter before the officials of the firemen's organization. To this the railroads agreed and it was arranged that another conference between opposing sides be held some time today.

I CAN RELIEVE

Rheumatism, Heart Disease or Kidney Trouble

In 3 Days With My Neuropathic Treatment. Will Give Services Free To Prove It.

AT THE NACHUSA HOUSE FROM MONDAY FEB. 24 TO FEB. 26.

There are hundreds of people who are suffering with either acute or chronic rheumatism in some form, neuralgia, sick headache, uric acid trouble. There are hundreds of people suffering with weakness or disease of the heart. Ninety per cent of these people have no organic disease, but just a functional trouble; yet, if it is let alone, it will produce organic disease and early death. Palpitation, shortness of breath, irritated heart action, intermittent pulse, dizzy spells, pain around the heart, fainting spells, bad circulation, cold hands and feet—all these symptoms indicate a weak heart and weak circulation through it. There are thousands of people suffering with weakness or disease of the kidneys. They go on, allowing it to gradually grow worse, allowing the kidneys to be clogged up, allowing them to become congested and inflamed and finally the little tubules are destroyed completely, producing Bright's disease and death, because the poisons and the waste matter that should be thrown off of the system through the kidneys is absorbed back into the blood, producing a slow form of poison that destroys nerves, muscles and vitality. In the early stages of kidney troubles, it may only show by an irritated bladder, burning, or backache, or simply weakness. But whenever this organ is not acting normally, you should have it treated immediately, because it is sure death if you don't stop it. The kidney is the sewer of the body and must be kept open.

I call special attention to these diseases for the reason that my Neuropathic system of treatment has a quicker effect on such diseases as these than many others. It acts quickly on the nervous system, circulation of blood, kidneys, bowels, liver and skin. I can give almost immediate relief to almost every case of this kind and give a complete, positive cure, if the patient will follow my advice and my treatment a reasonable time. My Neuropathic system cleanses and purifies the blood. It relieves the weakness and congestion about the heart, relieves the pressure in the small capillary blood vessels, so that the blood, when it leaves the heart, can go out naturally into the muscles, nerves, and extremities; and when that commences, in every case the disease deposit rapidly absorbs and disappears. I want every one suffering with these three diseases to call on me this trip. I will make a complete examination of the kidneys, of the heart, and tell you exactly the condition you are in, and if the disease has not gone too far, I will give you almost immediate relief and complete cure. To prove this, I will give my services free to every person that calls on me this trip. I want to give you no excuse to go ahead and suffer with these diseases. There is no reason why you should suffer day in and day out with every change of weather with rheumatism. It can be cured absolutely. There is no excuse for you to quietly sit down and allow your weakness and disease of the heart and the kidneys to gradually grow worse and to become an organic disease, when you know it is going to kill you. When you know if you wait too long, until the internal tissues of this organ are destroyed, nothing else can be done. My Neuropathic system of treatment has the most immediate effect on these cases. I want to prove it to you. All I ask of you is to come and see me. You cannot refuse this offer. You owe it to yourself and family and to this new scientific treatment to call on me and let me examine and explain all these things. Remember, I treat all chronic weakness and disease, no matter of what organ. My Neuropathic system of treatment has given relief in thousands of cases when all others failed. I use no strong poisonous medicines. There is a combination of treatment, both internal, and local. You have never used anything like it. I want to explain this to every man, woman or child suffering with any chronic disease, weakness, on this trip. Come early, it may be necessary to see you two or three times, especially if your case is severe and chronic. Remember, I treat no case by mail. I must make a complete examination of the case first. I do this for you free of charge on this trip. I will be at the Nachusa House from Monday, Feb. 24, until Wednesday night, Feb. 26.

TURK CAPITAL IS REPORTED AFIRE

Quarter Adjoining Famous Mosque of St. Sophia Is Burning Fiercely.

ENVER BEY IS RUMORED DEAD

Ottoman Chief of Staff Is Stabbed by Soldier and Seriously Wounded in an Attempt at Assassination 425 Bulgars Are Killed.

London, Feb. 18.—A dispatch from Constantinople says: The quarter adjoining the famous mosque of St. Sophia is burning fiercely.

One hundred and fifty houses have been destroyed already, in addition to numerous shops.

Report Gallipoli Has Fallen.

Constantinople, Feb. 18.—A private telegram received in Constantinople declares that Gallipoli has fallen. There is no confirmation of the report.

It is reliably reported that two Turkish transports heavily laden with reinforcements have been sunk by Bulgarian mines off Rodosto.

The Turks lost 5,000 wounded in the recent battle near Bilbil. The Turks were surprised and unprepared for a fight. They had, it is reliably reported, only one cartridge apiece.

The Greek transports, protected by the Greek fleet, landed Servian and Bulgarian troops on the Aegean coast on the southern end of Gallipoli peninsula. They also landed a large detachment of troops on the Asiatic shore near the plains of ancient Troy for the purpose of storming the forts at the entrance to the Dardanelles.

Enver Bey Fatally Stabbed.

Enver Bey, the Young Turk leader, who has been hiding in the sultan's harem following the dismal failure of his Gallipoli expedition, was fatally wounded by an assassin, according to a semi-official report.

Enver, who was the leader of the revolt in the capital which resulted in the assassination of Nazim Pasha and the overthrow of the cabinet, was attempting to leave the harem by a secret passage when he was stabbed by a man thought to be a soldier. Enver's own soldiers have been trying to kill him since he returned from Gallipoli.

Rumors were current here that Enver has died from his wounds, but they lack confirmation.

Turks Kill 425 Bulgars.

The Ottoman war office announces that 425 Bulgars were killed while trying to capture Omanli.

Diplomatic circles are keenly discussing the probable resumption of peace negotiations between Turkey and the allies, the threatening relations of Rumania and Bulgaria, with their menace, and the newly formed understanding between Russia and Austria. The operations at Tchatalja and in Gallipoli since the reopening of the war have been indecisive. Brave men have died by hundreds on both sides, but the positions of the belligerents remain unaffected.

WILSON'S BILLS ARE LAWS

"The Seven Sisters" Measures Passes House and Governor Signs Them.

Princeton, N. J., Feb. 18.—Governor Wilson's corporation bills, christened by him "The Seven Sisters," went to third reading and passed the house of assembly today. They received the governor's signature immediately thereafter, and thus became law, as they had already passed the senate. The result illustrates the governor's influence over the legislature. Moreover, it shows how quickly he has been able to answer the campaign charge that he had made no effort to correct the corporation laws of New Jersey. Heretofore the governor has had a hostile legislature to deal with.

BRIDE-TO-BE SOUGHT LIFE

Young Woman Tries to Kill Self on Eve of Her Wedding.

Webster, Mass., Feb. 18.—Eunice Irene Brigham of Los Angeles, Cal., who recently announced her engagement to Albert Carlstrom of this town, swallowed an ounce of tincture of iodine at her parents' home in Grosvenorale road, in an attempt to end her life. It was the eve of her wedding and she was expecting a call from her fiance. He found her in a semi-conscious state on the parlor floor. Then she fought with physicians and maids. She gave no reason for her act. Miss Brigham is twenty years old and prominent in society.

TEN KILLED AND 30 HURT

Laborers in Pennsylvania Carried to Death by Runaway Train.

Altoona, Pa., Feb. 18.—A construction train of seven cars ran away on a steep mountain spur track of the railroad belonging to the American Window Glass company, near Perry, Pa., and in the wreck which occurred ten laborers were killed and 30 injured.

Young Aeroplane is Killed.

Vienna, Feb. 18.—Lieutenant Mittner of the Austrian army, while making a trial flight in a new aeroplane, fell from a height of 300 feet and was killed.

Discovered Rare Disease.

During the eighteenth century Dr. Percival Pott of London, who was one of the best known physicians in that period, discovered the disease of the spine which he called "vertebral caries," or decay of the backbone. The treatment ultimately prescribed was plenty of pure food, sunlight, fresh air and sleeping outdoors all of the time.

Fine Crop of All.

No country, after all, produces any better crop than its inhabitants. And as I travel onward I like to think of these brave, temperate, industrious, God-fearing American people. I have no fear of the country while so many of them are still to be found upon the farms and in the towns of this land.—American Magazine.

Not What She Meant.

The other evening at a simple social function, opened with a game of cards, the host caused quite a stir among the ladies present by announcing after the guests had seated themselves at the tables: "If everybody's made up, we'll start." Self consciously they looked at one another and involuntarily their hands went to their faces.

Power of Kindness.

MARVELOUS is the power of kindness. They will do most in life who are most considerate. They may be charged with sentimentalism by those who do not understand the power of human feeling, but they will be credited with philosophy by men who understand the genius of sympathy.—Joseph Parker.

is the finest pop corn grown. The larger the ear the heavier the hull around the kernel of corn. The Little Tom Thumb takes its name from the fact that the ears are only about the size of your thumb. Hence the hull around the kernel is hardly noticeable when popped. If you have not tried it, you can not realize the difference this makes on the quality.
